Experience

EduNET Foundation (AICTE & Shell India)

(Oct 2025-Nov 2025)

AI & Data Analytics Intern — Virtual

- Preprocessed and analyzed 50,000+ records using Pandas and NumPy for sustainability ML projects.
- Developed 10+ interactive visualizations in Matplotlib, reducing manual reporting time by 30%.
- Ensured adherence to ethical AI practices across data workflows.

AWS Cloud Virtual Internship (EduSkills + AICTE)

(Oct 2024-Dec 2024)

AWS Cloud Intern — Virtual

- Deployed cloud infrastructure supporting 2000+ simulated users using EC2, S3, VPC, IAM, CloudWatch.
- Configured security controls and optimized costs, lowering projected cloud expenditure by 25%.

Generative AI Virtual Internship

(Jan 2025-Mar 2025)

Generative AI Intern — Virtual

- Created 3+ LLM-based prototypes using OpenAI APIs for automation and decision support.
- Integrated transformer models into data pipelines, enhancing task efficiency by 20%.

Projects

AMR Guard Chain — Digital Farm Management & Food Safety Platform

GitHub

React, TypeScript, Vite, Tailwind

- Tracked medicine usage for 500+ livestock across 20 farms, ensuring 100% regulatory compliance.
- Designed veterinarian approval workflows and automated withdrawal-period alerts, reducing errors by 25%.
- Developed role-based dashboards for farmers, veterinarians, and admins.
- Integrated QR-based consumer traceability for 100+ products daily.
- Validated input forms using React Hook Form + Zod; created analytics dashboard with 10+ KPIs.

FarmDirect — Direct-to-Buyer Farmer E-Market Platform

React, Node.js, MongoDB

- Enabled 50+ farmers to sell to 200+ buyers in beta testing.
- Configured secure authentication, messaging, and order management via REST APIs.

Online Book Store Management System

Java, Spring Boot, MySQL

- Managed catalog, checkout, inventory for 1000+ products.
- Engineered secure REST APIs and optimized SQL queries, reducing response time by 40%.

Education

SR University

2023–27

B.Tech in Computer Science and Engineering (AIML)

Warangal, Telangana

Achievements

CSI Student Chapter Member (2024–25) with University Recognition.

Top performance in semesters 2.1 & 2.2 with academic excellence.

Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Spring Boot, FastAPI, REST API

Databases: MySQL, MongoDB

Cloud/DevOps: AWS (EC2, S3, IAM, VPC, CloudWatch), Docker, GitHub Actions

Tools: VS Code, NetBeans, Postman

Concepts: DSA, OOP, CRUD, Agile,

Domains: Machine Learning, Generative AI

Certifications

Microsoft Azure AI Fundamentals (Aug 2025)

TCS iON Career Edge (Feb 2025)

Salesforce Virtual Internship (Feb 2025)

Cisco Networking Essentials (Sep 2024)
